This is an optional worksheet to assist with iPAQ Special Access Program (SAP) reporting. Electronic iPAQ SAP data are required to be uploaded with Obscon. At the beginning of the trip, confirm with the Captain that they are declared into the "Regular B-Day Program" and ask what VMS Fishing Area Code they used. At the end of the trip, ask if they Flipped or Flexed during the trip. Include observed hauls only. Submit worksheets with trip.
